## *Company Profile*

Veekay Tools is an outstanding forerunner, into Business since 1952, in the quality manufacturing & exporting of the wide-ranging Hand Tools, Garden Tools & Leather Tool Bags. Since our inception in 1952, we have progressed as a mere name to a well known ISO 9001:2008 certified entity due to our impeccable quality and infrastructure. As time has progressed, we have made sure that our products comprise of the latest technicalities and designs.

Our vast product galore range of Hand Tools like Spanners, Wrenches, Pliers & Pincers, Hammers, Carpentry Tools, Vices, Automotive tools, Lubricating Equipments, Garden Tools, Leather Tool Bags & etc. At Veekay Tools each of the produce is professionally managed from the designing at the in-house Design room to the final production. Selective in the choice of raw material, Veekay Tools produce undergo stringent quality testation at the quality control department for the users benefit.

At Veekay Tools all the products are made well in tune according to the International Standards & Specifications. We have innumerable happy & satisfied customers nationally & internationally. The company is currently exporting to more than ten countries worldwide like USA, UK, EUROPE, SOUTH AMERICA, MIDDLE EAST, AFRICA, AUSTRALIA, Etc. With the, committed commitments to the quality orientation, cost effectiveness & timely deliveries, Veekay Tools enchases the skin -deep appreciations bestowed by the clientele that exhibits the success experienced.

# Infrastructure

Ludhra Overseas operates with the help of a strong team comprising of well qualified and highly experienced designers, metallurgists, managers and other professionals. We have state-of-the-art tool making machines and dedicated designing department. We are quick to adhere to individual client's demands for any special tool and provide him with timely delivery as per his specifications. With perfection in our work, we aim to expand our clientele worldwide

# Quality

We are an quality centric company and our tools are prominent for their endurance, performance and reliability. All our tools are designed as per the principles of ergonomics for the improved hand control as well as reduced fore-arm fatigue. The company gives lot of emphasis on proper handle designing.

In terms of metals and materials being used, Our strength is its capabilities of undertaking analytical raw material tests with the state-of-the-art spectrometers and other laboratory instruments. Our material testing lab is well equipped with analytical and interpretive expertise for efficient development and method validation.
